Data & Analytics: Tableau, Tableau Prep, MySQL, PostgreSQL, Oracle, ETL, Excel

Design & Development Tools: Figma, Miro, InVision, Postman, Git, HTML/CSS, Python, JavaScript, WordPress

WORK EXPERIENCE

Vancouver Island Real Estate Board

Nanaimo, BC

IT Business Analyst

Dec 2024-Present

- **Led selection of a new Association Management System (AMS)** by translating user research from 16 stakeholders into requirements, evaluating 8 vendors through RFIs and weighted scorecards, and shortlisting 4 for RFPs and demos to support stakeholder decision-making.
- **Supported testing of an AI chatbot** by designing prompts, validating responses, and structuring knowledge base content into staff, member (1,100+), and public tiers to improve accuracy and relevance.
- **Owned end-to-end Agile delivery for member-facing system enhancements (MLS, AMS, member portals)** by translating user feedback into requirements and user stories, managing the product backlog, and coordinating priorities across teams. Delivered improvements to system navigation, member tools, and department workflows to better support user needs (e.g., mass billing feature, LMS integration).
- **Owned and supported enterprise systems including Tableau and Autotask**, developing dashboards for finance, education, and listings (serving 1,100+ members), and improving member support workflows by managing a ticketing system for issue tracking, automated responses, and resolution updates.
- **Built and maintained Tableau dashboards** by extracting and transforming data using Excel and Tableau Prep, improving data quality, reporting consistency, and self-serve analytics capabilities.
- **Acted as a product liaison to launch a Tableau-based reporting dashboard**, translating business requirements into technical solutions and coordinating a cross-functional team to modernize legacy reporting into dynamic dashboards.
- **Chaired the Data Access Governance Committee**, defining policies for secure and scalable data usage while balancing compliance requirements with usability and operational needs.

Application Developer

Feb 2023-Dec 2024

- **Boosted website traffic by 51% and user engagement by 30% in four months** as measured through Google Analytics, by redesigning and launching a new client-facing website using Figma, WordPress, and user-centered design principles.
- **Improved member portal engagement by 68%** by producing monthly web reports and analyzing user behaviour data to iterate on UI/UX improvements such as navigation, button placement, and feature discovery.
- **Created a more seamless and secure user experience for 1,100+ members** by collaborating with a cross-functional team to implement Single Sign-On, strengthening security measures to protect client data and prevent breaches.
- **Reduced organizational phishing risk by 44%** by leading cybersecurity awareness initiatives, including training modules and phishing simulations, strengthening overall data security practices.

Snack

Vancouver, BC

Software Developer Intern

May 2021-Aug 2022

- **Drove user acquisition by 13% and organic signups by 15%** by launching three interfaces using Go and JavaScript.
- **Improved internal moderation efficiency by 24%** by developing features that streamlined operational workflows and reduced manual reporting effort.
- **Increased user acquisition by 8%** by redesigning user onboarding and introducing profile sharing and video matching.

EDUCATION & PROFESSIONAL DEVELOPMENT

University of British Columbia, Vancouver

Vancouver, BC

Master of Management (GPA: 4/4.33)

Jun 2024-Dec 2024

BSc Cognitive Systems, Computational Intelligence & Design (GPA: 4/4.33)

Sep 2018-May 2023
